

From Idea to First Offer

The Program + The Breakthrough Protocol

A practical four-week path from stuck in planning to making real offers, built around identifying and dismantling the block beneath your logical reasons for waiting.

Ideal Clarity Solutions LLC

The Breakthrough Protocol

You do not have an information problem. You have a block. You already know how to start a business; the disconnect is between knowing what to do and making yourself do it.

Common blocks that look like logic

- If I choose the wrong niche, I'll waste years ' Terror of wasting time
- People won't take me seriously without credentials ' Need for external validation
- I can't start until I quit my job ' Belief you must choose between security and building
- My website needs to be perfect first ' Fear of being seen before you're ready

Your logical reasons are covering up something deeper. Once we identify the actual block and remove it, you can execute what you already know how to do.

How It Works

Week 1: Identify the block

In a 60-minute session, we find the pattern you cannot see from inside. 'I don't know my niche,' 'I need a website first,' and 'I should get certified' are often symptoms rather than the real block. We find it and name it.

Between Weeks 1–4: Daily dismantling work

You do not need to think positive or build confidence. You systematically dismantle the block with 5 minutes of breathwork to calm your nervous system and 10 minutes of evidence-based rewiring.

- Calm your nervous system with breathwork.
- Read evidence that directly contradicts the block.
- Repeat the work daily while your nervous system is calm.

By Day 10–14, the block is significantly weakened. When you think about choosing your niche, your brain does not panic anymore.

The Four-Week Program

4 weeks · \$3,500 · 10 offers made

Week 1 — Identify the Block

We dig into your pattern: what you have been planning, what keeps stopping you, and what your logical reasons for waiting actually are. By the end, you see the real block for the first time.

- Daily dismantling work (10–15 minutes per day)
- Breathwork to calm your nervous system
- Evidence-based exercises to rewire the belief
- Voxer check-ins when you get stuck

Week 2 — Build Your Offer

Finalize your niche, create a simple sellable offer, set pricing with rationale, and craft your positioning without spiraling.

- Optimize your LinkedIn profile and create a simple one-page site or outline
- Continue daily dismantling work

Week 3 — Prepare Your Outreach

Identify 20 people who might need what you offer. Craft customized outreach messages, learn to move from conversation to offer, and handle objections before they arise.

- Send your first five outreach messages
- Schedule conversations with responders

Week 4 — Make the Offers

Make 10 offers to real people with live support, handle 'no' without spiraling, track responses, and identify patterns. You are no longer stuck in planning mode.

What's Included

- 4 weekly 60-minute 1:1 sessions
- Daily dismantling exercises: breathwork plus evidence work
- Voxer/email support between sessions, Monday–Friday
- Offer Blueprint: positioning, pricing, and messaging
- Outreach templates customized to your business
- Accountability to actually do the thing

Execute Without the Block

The work is the same whether the block is there or not. The difference is that without the block, you can actually do it.

This is for you if

- You have been planning to start for six or more months but cannot execute.
- You know what to do but cannot make yourself do it.
- You are employed and want to build on the side, not quit and hope.
- You are ready to invest \$3,500 and make 10 offers in four weeks.

This is not for you if

- You are still exploring ideas or genuinely do not know what business you want to build.
- You are looking for Instagram growth tactics or marketing funnels.
- You are not ready to start in the next 30 days.
- \$3,500 feels impossible right now.
